Shiny Christmas Ball Wreath

Here's What You Need:

Christmas Balls, assorted colors and sizes
Approximately 4 doz 2", 3 doz 1,1/2", 2 doz 1" 2 doz 1/2" (if you can get some smaller ones they are good to fill. I used a string of beads and cut them up).
Thin piece of wood or thick piece of cardboard at least 18" x18"
Piece of wire about 10"long
Jigsaw to cut wood or scissors to cut cardboard
Hot glue gun, glue
Spray paint, the color of your choice (red, green, gold or silver)

Here's What You Do:

Cut the piece of wood or cardboard into a wreath shape. If you have a compass that will work good or tie a string to a pencil, place the pencil in the middle of the piece of wood and pull the pencil around drawing the circle as you go. Draw a second circle measuring 3" in from the first.
Spray paint desired color and let dry
Wrap the wire around the wreath and twist to make a loop for hanging the wreath. Starting with your largest balls distribute evenly around the wreath, and continue on with other sizes of balls making sure to balance out the colors as you go. Be sure that each ball is secure and that no pieces of glue are hanging anywhere.

This Christmas ball wreath is quite easy and very pretty. You could plan ahead for next year and get some balls on sale after Christmas and make a few more for yourself or someone else.
